FTA Review and Approval

Overview
This chapter will detail the following system parameters and features: the review and approval process, Comments/Concurrence, Review/DOL Dates, Reservations, Obligation/Award, and Deobligation. The majority of the features discussed in this chapter are going to be for FTA users only.

FTA’s Review and Approval
FTA staff will conduct a preliminary review of the application for conformance with FTA program requirements. After the Recipient has submitted its application through the TEAM-Web system, FTA will use the Review and Approval windows to review it.

The most current edition of FTA Circulars will provide guidelines for the preparation of project applications authorized by FTA’s programs.

Certain application processes and functions (e.g. STIP and UPWP approvals, state allocation of Section 5303 formula approvals, flexible fund transfers, etc.) must be performed outside the TEAM-Web system. The results of those processes and functions will be reflected in the Comments/Concurrence windows.

Comments/Concurrence
FTA may record comments regarding the application, at any time, until funds for the Project have been awarded.

FTA’s comments may generally or specifically address one or more review areas. The five categories of FTA comments include:

1. **General Review**: Typical examples include requests to the Recipient for:
   a. additional information or documentation
   b. modifications to the application
   c. requests for project changes

2. **FTA Internal**: Comments to be viewed by FTA staff only – Concurrence/Approval stamps are automatically populated here as well.
3. **Conditions of Award**: Special conditions, requirements, or other provisions intended to be included in the Grant Agreement or Cooperative Agreement

4. **DOL**: Comments to the Department of Labor – the only Comments DOL users may view

5. **FTA Project Description**

If your application requires modifications, FTA will release it for changes. See previous chapters (primarily chapter 4) on how to “Modify Application” to make the requisite changes.

The following describes how to view the **Comments/Concurrence** window to see if any comments have been posted to your Project and how to retrieve and review those FTA Comments.

**Comments Tab**

1. The Comments/Concurrence screen defaults to the “Comments” tab. The active comment type is highlighted in a light blue as seen in Figure 1.
2. The Brief Descriptions of each Comment Type are listed under the Comment table
3. The remaining details of the highlighted comment can be seen throughout the screen including: Brief Desc., Comment On, Activity, Comment Text, Entered, Updated, and Comment By.
Adding or Deleting a comment (See Figure 2):

1. To add a comment, simply select the Comment Type that you would like to add by clicking on that type in the Select Comment Type field
2. Click on the “Add” button
3. Type in your Brief Description
4. Select the subject of your comment in the Comment On field
5. Select the Activity (if necessary)
6. Add your comments in the Comment Text field
7. You may view or modify your Comment Text in a larger screen by clicking on the document icon in the upper left hand corner of the Comment Text field (circled in the illustration)
8. To delete a comment, simply select the comment (click on to highlight) that you would like to delete in the Comment table
9. And click on the Delete button found at the top right portion of the screen
Figure 2

Figure 3 displays the expanded view of the Comment Text field. Changes can be made directly to the expanded text view if desired by directly typing in the window and then clicking on the Save Button. The Save, Cancel, or “x” buttons within the expanded view box will close the View Text window.
There is a clear audit trail as to when a comment was created, who the comment was created by, and when the subsequent updates were made to the comment (if any). The referenced area is circled in Figure 4.

1. The very first General Review comment will trigger the entry of the “Review Comments to Recipient Date” on the Summary Tab
2. When the application has passed the reviewer and been marked complete under Application Status, an internal comment with an approval stamp and date will be created for “Transportation Program Specialist” and the approval (current) date will also populate on the Summary tab.

3. If the Application Status is changed to Return to Recipient, then an internal comment is created to track this as well.

**Concurrence/Approval Tab**

The Concurrence/Approval Tab can be viewed in Figure 5. This screen allows the FTA user to select a Concurrence/Approval type, enter and approve the date of the concurrence, and enter any desired text. Transactions are recorded and tracked in a variety of ways.
1. Begin by selecting a Concurrence/Approval type by clicking on the drop down arrow, then selecting one from the list (simply click on your selection – See Figure 6)

2. If a date/comment is already recorded for that Concurrence, then the appropriate information will be displayed (Comment Text, Entered Date, Comment By, etc.)
3. Select a Concurrence/Approval Type without any information (FTA Headquarters Review for example) and enter in an Approval Date (it may not be a future date)
4. Clicking on the “Today” button will automatically enter in the current date for you
5. If you are satisfied with the date you have entered, click on the “Approve” button
Clicking on the approval button triggers a number of actions that both record data for audit purposes, but also reduces the need for redundant data entry. Note: until you save by clicking on the Diskette (save only) or Green OK check mark (save and exit) buttons you still have the capability to remove the date stamps.

You may click either the Cancel (discard changes and exit) or the Discard Changes (remove changes only) buttons. You must save the changes for them to remain.

1. The “Entered” date is populated with the current date and the “Comment By” field is populated with the user name of the individual approving the Concurrence (see Figure 7).
2. An Approval Stamp with the date you entered into the approval date (i.e. not necessarily the current date) will appear in the Comment Text field.
3. If you were to update your comments, an “Updated” date would appear as well as an updated Approval Stamp in the Comment Text.
4. You may remove some of the approval stamps in the Comment Text, but one will always remain.
5. An “Internal” comment is created on the Comments tab (See Figure 8)
6. And the date is recorded to the corresponding date field on the summary tab
Only users with specific role ID’s can enter FTA Civil Rights Concurrence and FTA Legal Concurrence dates. A user trying to approve a date who does not have the necessary rights will see one of the pop up messages detailed in Figure 9.

After clicking ok within the message box, the date field will return to its previous value.
Summary Tab

Figure 10 is an image of the Summary tab of the Comments/Concurrence tool. All of the dates are read only in this view. The dates are automatically updated using tools on the previous two tabs (Note: Once a grant is awarded, the concurrence dates will be locked as read only).

This tab allows the user to get a broad view of which Concurrences have approval dates and what those approval dates are without having to click on each comment individually.
Review/DOL Dates

1. Click on **Review and Approval** in your Main Menu bar and query for your project (See Figure 11).
2. Click on **Review/DOL Dates**.
3. A new screen should open up Revealing **Review DOL Dates** and defaulting to the Background/Award tab.

![Figure 10](image-url)
Background/Award Tab

This tab notifies the user of applicable status completion dates. User rights and the Project Status will dictate what dates are viewable and/or modifiable. Note the outline around those fields that are currently modifiable (Estimated Obligation and Date Released in the Figure 12 example). The circled status bar at the bottom of Figure 12 indicates how many records there are in for each category within the Comments/Concurrence screen. The user can simply click on Comments/Concurrence from the main menu status bar if they would like to add a comment.

Figure 11

![Image of the Review/DOL Dates window, showing recipient and project information along with dates and statuses.](image-url)
1. The recipient number can also be changed from this screen for a project that does not yet have funding reserved (See Figure 13).
2. Change the recipient number and tab out of the field. A message window will open asking if you wish to proceed.
3. Click ‘OK’ if you would like to change the Recipient number.
**DOL Certification Tab**

4. Click in the radio button that reflects the appropriate level of DOL involvement on the DOL Certification tab page. You may submit the application to DOL for **certification** or **information**, or select N/A if the DOL is not involved with this application (see Figure 14 below).

5. To e-mail a copy of the application to DOL, click in the **Send Application to DOL** box. TEAM will format the application, attach it to an e-mail, and send it to DOL.

6. Click on the **OK** icon to save your changes and return to the Review and Approval window.
Reservations

1. The FTA user opens up the Reservation screen (see Figure 15)
2. A cost center is selected and the FTA user adds UZAs/Account FPCs
3. If earmarked, the Applies Earmark / Discretionary checkbox will be marked (read-only)
4. Once reserved, the project status changes to ‘Pending Application/Ready for Award’
5. Select the **Funding Cost Center** from the dropdown list (see Figure 16).

6. Click on **New UZA** and the first available row in the table under the UZA column will highlight blue. Type the **UZA Code** directly in the **UZA** column. The **UZA** will appear in the **UZA Description** column.

7. If a new UZA code has been assigned to the area, click on the **ADD** icon to enter that new UZA code. Then type the code directly in the **UZA** column. Be sure that the code is entered into TEAM system’s information about the Recipient.

**Note:** For a list of UZA codes:

A. Click on the **Details** icon (magnifying glass).

B. Select the codes you want to add by clicking on the box beside each code (or utilize the select/deselect all buttons).

8. Click on the **OK** icon to return to the **Reserve Funds** window.
9. Select the **New Acct.** line in the **UZA/Account-FPC** column (see Figure 18 for steps 9-14).

**Note:** If the project record you are working in is an Amendment (e.g., -01), then account class codes used in previous amendments will display even if the reservation amount for those accounts remains zero for the new/current amendment. Accounts used for any previous amendment are carried forward and cannot be deleted.

10. **a.** Type in the **account code** to reserve funds against or **b.** Click on the **Details** icon and select from the list that appears (see Notes A and B after step 7 for details).
Notes: Shared State Codes between Regions

If a secondary state code (170001 for example) exists for a split region, then a new form (see Figure 17) will appear for the user. Once the user has selected the preferred code, the user is returned to the Reservation screen where they can enter their reservation amount to the Small UZA. Although the Small UZA is displayed, the funding source is the State, and the availability of funds will correspond to the amount available for the State code selected.

The ability to select multiple codes in the UZA/ Account FPC lookup screen (see Figure 16 for an example of the feature) may result in the display of multiple primary and secondary state listings as seen in Figure 17. Manual entry will only display one radio button set since only one code combination can be entered at a time using that method. Once the primary or secondary funding source has been established, the user will no longer receive the same entry form. For example, if the secondary state code UZA 170001 is selected for FPC 00, account 2005.21.90.91.1, and FPC 02 is later entered/ selected for the same account, then the form will not activate for the user a second time since the funding source has already been established and cannot contradict for the same account.
11. In the Reservation column, type the amount reserved.
12. Click on the Project Funding tab for an updated display of the reserved funds for all amendments on this project.
13. Click on the Change Log tab for a history of all updates to this project’s reserved funds.
14. When finished, click on the **OK** icon to save your changes.

15. If the project contains earmarked funding, **Reservation amounts** are compared with **Total Earmark Applied amount** from the Project Information screen. If they do not match, the amounts will need to be adjusted (see Figure 19).

16. When reservation is successful, changes will be saved and user is returned to the Review and Approval window.
Obligation/Award

1. FTA users with award authority can award/obligate a project.
2. First they must select **Obligate/Award** from the main menu (see Figure 20).
3. Then in the Obligation/Award screen, they must enter the appropriate **PIN** and click **Award**.
4. A message will appear when the project has been successfully Obligated and Awarded.
5. TEAM-Web updates the project status to ‘Obligated/Execution Req’d’. The Recipient may execute the project after the award.
No action is required in the Summary and Obligations tabs, but the user should study them carefully to verify correct information (see Figure 21).
Deobligation

1. From the Review and Approval window, click on the Deobligation button. The Deobligation window will open, showing the Difference to be deobligated (See Figure 22. Note: funds may become available from an approved budget revision – see chapter 8 for details)

2. In the Current Deobligations column, enter the positive amount to be deobligated.

3. If project contains earmarked funding, Earmark/Discretionary checkbox will be checked (read-only). Earmark funding may need to be adjusted in Earmark Administration screen.

4. Press enter and click on the OK icon to save and close. After funds are deobligated, FTA may then Reserve and Award the funds elsewhere.

Notes: Deobligations
An amendment must first be created before a Deobligation can be performed (see Chapter 5 for the Create Amendment process). If a project is being closed, then the Deobligation tool should not be used – a deobligation will be done using the New Closeout tool (see Chapter 8 for details).
